Pharmacy Preceptor Training 2022

(Electronic Version)

*Deploying the 'BE, KNOW, DO'
LEADERSHIP FRAMEWORK*

SYNOPSIS

The course framework adopts the 'Be, Know, Do' Leadership framework;

Be an effective preceptor begins with self. Lead self before leading others.

Know the skills to be proficient in precepting and preparing pharmacy interns ready for professional practice

Do it! Taking action is imperative to achieving the goals, otherwise words are empty and plans are but dreams.

LEARNING OBJECTIVES

- Understand the goals of preceptorship, the roles and responsibilities and expectations of a preceptor
- Understand self-leadership in order to effectively lead others
- Identify the qualities of effective preceptors
- Discuss the importance of interpersonal and communication skills
- Learn and practice how to precept and coach (include learning styles, teaching approaches, questioning, clinical reasoning)
- Learn and practice how to give feedback objectively and effectively
- Learn and practice how to do assessment in the developmental continuum
- Discuss the importance of motivational skills including handling of millennials
- Discuss the importance of building positive and successful preceptor-trainee relationship
- Learn how to get started by designing and planning the trainee's learning experience
- Discuss the challenges of precepting and how to overcome them
- Discuss the key success factors for the preceptor in achieving optimal training for the intern
