*Total period recognised for Medicine posting is capped at 6 months (including all postings from a – k).

**Total period recognised for General Surgery and Orthopaedic Surgery postings is capped at 3 months each (including all postings from 3a – 3d and 4a – 4b respectively).

Note:

- 1) FPAB does not recognise clinical experience from Housemanship (HO) and Transitional Year (TY) postings for accreditation.
- 2) In the event if the practitioner has done both MO and residency postings, the same cap on the number of months which is the maximum duration will apply.

Currency of Practice (COP):

- 3) Only MO and Residency postings in polyclinic and GP clinic settings can count towards satisfying the COP requirements for accreditation.
- 4) Postings to Community Hospitals can count up to 15 hours of COP, provided the practitioner satisfies 15 hours of COP in polyclinic or GP clinic setting.
